Customer Reviews

I got this free from ohfb.com and was so excited to open the set in my e-reader. I was SO disappointed when I realized that the first 2 books, have the SAME EXACT ILLUSTRATIONS and the grammar is atrocious, repetitive, and non-informational. The illustrations are ridiculous, like someone just picked out random stock photos without taking the time to see what the corresponding text was, and just stuck them in there. I didn't bother opening the 3rd book, by the time I was through looking at the first 2, I was already headed to "manage your content" to delete these complete wastes of time.....

This book is not what the title says A jewelry making book should be on jewelry making not yoga or other things

I always like learning new things. I love to wear jewelry and now I can make mine own and maybe sell some. I still having a hard time doing some of the jewelry, but I will get it right. There is so many different things that I can make in this book. Love it will continue to read more.
