Fire TV Stick User Manual: The Comprehensive "Made Easy" Step-by-Step User Guide For 's Fire TV Stick

Synopsis

THIS IS IT! The comprehensive book that you've been looking for, written to cover all aspects of the Fire TV Stick!(NOW AVAILABLE IN BOTH PAPER AND E-BOOK EDITIONS; click 'kindle' or 'paperback' above.) Also, COVERAGE OF SLING TV is now included in the Kindle version!If you are looking for a top-notch tutorial at a reasonable cost, you've come to the right place! Here is the book that will teach you 100% of what you need to know. Fire TV Stick User Guide: A comprehensive "made easy" step-by-step user guide for Fire TV Stick is your detailed guide to getting the maximum enjoyment factor from Fire TV Stick.With this user guide, you'll learn everything you need to know about Fire TV Stick, from the basics involving set up and ways to access your streaming content to advanced topics that include mirroring between Fire TV Stick and a Kindle Fire tablet, and ways to show photos you've stored in the cloud as a slideshow using your Fire TV Stick. Fire TV Stick User Guide comes from the pen of Edward Jones, the principal technology writer behind the "Tips, Tricks and Traps" series of computer books. Jones is an experienced computer and technology writer, database applications development analyst, consultant, and trainer who understands the issues faced by people dealing with technology, day in and day out. His career spans years of technology training, database development, and consulting services for major law firms and government agencies in the Washington, DC area, and he currently resides in Charlotte, NC where he is concentrating on providing publications to the rapidly growing digital marketplace. Jones is also a best-selling author whose printed titles have sold over one million copies, and he has served as a technical editor on numerous computer books.

Customer Reviews

I love this guide and I love the Fire Stick. The book is easy to read and it's comprehensive. If you the buy Fire Stick then you need this book.

This is a comprehensive, easy to read book covering everything you need to know about the Fire TV stick.

I am a senior citizen with very little computer knowledge. My son had to come over to set up my VCR, then my DVD player, and My computer and Kindle. I checked this out when I got my new Fire Stick, and, following the directions, was able to set up my Fire Stick ALL BY MYSELF!! Talk about a confidence builder.

Even though I have already learned a lot of these things. I wish I could have known about this book when I first got my (first) Fire Stick. Tons of information here, for those new to a a Fire Stick, and those who don't go poking "under the hood" as I always do. HIGHLY RECOMMENDED for anyone who is new to a Fire Stick, who isn't sure this is the right gadget for them, or those who have one and simply need help in understanding how it works. I love my Fire Stick so much I bought another for my granddaughter.

This is a good book for the owner of Fire TV stick, or a person contemplating the same. It will help you in so many areas. My biggest criticism is the area on Sling TV, which is literally a sales prep and users guide for that service. It's just ridiculous. By contrast, there is virtually nothing on problems setting up or maintaining the device, if you have wifi issues or other tech problems he is of no help. I wish I had purchased another ebook other than this one.

Really informative and an easy read. I had not bought a Fire TV Stick yet at the time of getting this guide, and was looking for some simple explanation that would help me decide. This book has done

just that : given me easy to understand instruction and knowledge. I am now going to order my Fire TV Stick and tell the high prices cable company "bye bye."

Helpful for a beginner. Repeats some lines to much. But overall a helpful little book for free with prime

Almost everything was covered beautifully except the companies that we are getting our tv from. Since it didn't mention if it could mess with my Dish programming I was worried if I would mess it up or maybe disconnect from them. But it worked wonderfully. Written for a beginner. Thanks.
