Synopsis

iPhone 7 (FREE BONUS INCLUDED)The Ultimate Apple iPhone 7 User Manual - Discover Amazing Hacks To Master Your iPhone 7 Now!There has been a wide anxiety all around the world over the release of the new iPhone 7, while the speculations are still on at this stage, it is important that you have a guide on how to use the most anticipated iPhone series. Though, the release date has not been made known but it is expected to be between September and November of 2016. There are cool new features being anticipated from the iPhone 7, these include; new smallest memory size that has been increased to 32GB, and a top end memory size of 250GB. The new iPhone 7 design also comes with a new water-resistant body, Bezel-less metallic body, and a slimmer 6mm to 6.5mm body thickness. The new iPhone will come with no camera bumps or antenna bands, larger and faster-charging battery, and a faster processor. This book has been well-researched and written to guide you through the most important aspect of using your new iPhone 7. You can learn the following from this user guide:How to set up your iPhone 7 as a beginner user without making any error,How to make use of the wireless charging system,How to make use of advance camera features to make sharper and brighter photos and videos,How to make use of special features such as voice and face recognition, thumbprint usage and so on,How to set up your old iPhone account in your new iPhone 7 ,How to perform basic troubleshooting techniques, to correct some errors, andMuch more !Download your copy of iPhone 7 by scrolling up and clicking "Buy Now With 1-Click" button.

Customer Reviews

This is an utter and total embarrassment. 32 pages with no pictures or illustrations. Written before the release of the phone, the introduction speculates on the features of the phone, pretty much missing the reality on every one. The wireless charging is discussed in some depth except that the phone does not have wireless charging. Not one word about the camera operation. Some depth about the the remote and mic on the earpods except those features don't exist. Laughable and utterly worthless.

This is the perfect guide for new iPhone 7. Have bought it before iPhone 7 release and read it all. When I got iPhone 7 it was under my fingertips like I was using it for years. Really helped me understanding all new iPhone 7. Recommended!!

This is amazing. As we know iPhone 7 is the new launched of the Apple and people are going to buy this and this is the great time to publish this book as everyone knows need a guide for the best use of the iPhone 7.

People who are Apple's fan and iPhone is their drug to be precise (lol) , should read this manual which describes all the latest features about iPhone 7. It gives a unique index to every feature and is a well tailored manual too.

Don't pay money for this. It's a poorly written synopsis of features the iPhone 7 may have. It does not contain what the author says on cover.
