## Customer Reviews

This book has nice pictures, but that's it. Of little to no use to a beginner looking for instructions on how to create silk floral arrangements.

This book is full of lovely photographs and great projects. The instructions are brief, but the photos make up for that. An excellent book for anyone wanting to do some pretty arrangements for their home.

Very quick delivery, item exactly as described. There is not a lot of instruction in the book but the photos are well done and with a little imagination of your own you can create beautiful arrangements with your personal touch.

The book was in good shape, The arrangements in the book are not new styles; they seem to older styles but still had nice arrangements

Great, clear instructions
