Customer Reviews

Adobe After Effects (Ae) has become a mainstay in major Hollywood feature films as well as the compelling animation engine behind broadcast news graphics all over the globe. Much like those

who master Photoshop, the work of Ae artists can easily be so impressive that some feel After Effects is too intimidating to be approachable. Nothing could be further from the truth. Ae is packed with power and, yes, some After Effect masters do impressive work. Yet, as with many Adobe apps, which have a decades-long legacy, all you need is a well-planned and tested learning experience to give you a can-do attitude. In all candor, though this is our 105th Classroom in a Book (CIB) and weâ ™re Adobe Creative Professionals (ACP), a fair question is â œWhatâ ™s this book to you?â • The answerâ ™s simple, the CIB series is the blueprint to Adobe CC app learning. Many Adobe Certified Instructors (ACIs) use CIB as the foundation of their classroom training, for those who wish to become Adobe Certified Experts (ACE) or Adobe Certified Associates (ACA). For us, these books are study guides as to how we can be sure that we are up to speed on every foundational, new, and important aspect of how apps, like After Effects, must be understood and mastered. We have created our â œMapped Appâ • series as a study guide to important books for creative professionals. They are both our direction on each chapter plus an item-by-item checklist of what needs to be mastered in each learning resource. That said, another good question is, â œDid you learn anything?â • These Mapped App things are a journal. We write them as we go through the lessons, in the same way an Ae newbie would experience these things. As anyone who has read our years of .
