To all Minecraft lovers, this is a must read book as it gives tips on what can be done to navigate through the different barriers as you enjoy your game. Talk of building Improved strong walls against zombie even in advanced game levels, Slaining Enderman, Surviving the mob and succeeding to jump over the hill, dealing with hostile mobs such as silver fish, about escaping the archer skeleton. For the minecraft lovers know what am talking about and the book will give you more guidelines on how to go about the different hurdles.

I personally don't play Minecraft but my son loves to. I purchased this Minecraft book for my son. He has loved Minecraft for years and is always talking about it. He really enjoyed it and said that he

learned several new things to try out as he plays. It will give him hours of fun. It is a must have for all serious Minecraft players. Lots of ideas for hours of fun. I received this product at discounted or free price for honest unbiased review.

My nephew liked reading this book because its format is simple and readable at his young age, but it lacks pictures for him to know what those crafts the book was talking about. The descriptions of those building blocks stated is a bit interesting though. I gave this book a 4 star because overall, the books explanation is consistent.

I really love minecraft game but I am not so good in it and I always get stuck in difficult levels. When I read the title of this book I knew it would help me be a better player and gain some skills to be a better player. Luckily I found more than I expected in this book as I learned many tips and tricks that would make me a master of minecraft. I also learned many great secrets about the game.

I bought one of these books for my brother and he really loves it! Playing Minecraft is his thing and I just wanted to make him happy. The tricks are indeed very useful and so fun! Nice book! I recommend this book.

I bought this book on for my son, he loves playing Minecraft. That's why when I saw this book on I didn't hesitate to buy it. He really enjoys reading this kind of books and he asks me to purchase a new one soon. I will be looking forward in the upcoming Minecraft book of Gold and hopefully it will be soon.

I don't play minecraft but my daughter does so I downloaded this book for her. She is having a hard time to dominate the game and always bugging me to help her. This book is short but very helpful. The hints and secrets are great and effective. It is written clear and easy to understand that my daughter did not ask for my help reading it. She is now enjoying the game especially that she is winning the game. Thanks to this book for making my daughter happy and proud.
