Customer Reviews

If you love those small, round, colorful balls of glass, you will love this book. Very informative book helps you identify them and learn some history along the way. Highly recommended to me and now to you!

While I do not hate it, it does not have enough pictures for me, I am a serious collector, need lots of pictures, there is a lot of detailed stuff in there, without examples. Still good to have, just more for me is needed.

WOW what a great book. I've collected marbles for several years and I'm always on the lookout for material that will help me learn more about these little works of art.

Good info. Nice color pic's. FAB
