Customer Reviews

The book was complete and compact. It seemed to have the most up to date information related to if a piece is retried, ect. I also enjoyed being able to write in my collections value and which pieces I have in my collection. I find this book to be helpful in biding for auctions ect.

This book is handy for organizing your collection, and a MUST for any collector! It was essential in determining how much insurance coverage we should add when we married. Also, I have found it to be extremely handy for spotting Rare Bears and retired pieces, and the book has been a useful tool in online auctions.

this book was not as informative as i thought it may be. I have an older book by a different author, and it gives a higher value and any rarities or varations that a teddie may have.. It's an OK book but i would have liked more info..

This book was a big help when I tried to see how much my collection is worth. Some of it was a little hard to follow though. Some teddies look like their in hte wrong place and some of the picturs are small and fuzzy.
