Customer Reviews

If you are contemplating the purchase of an iPhone, I highly recommend that you purchase this book. It will make your ability to take photos that you will be proud to share. His chapter on Apps is especially helpful. The book is loaded with humor and color pictures on nearly every page to demonstrate and hold your interest. Hard to put this one down! This is written concisely and is very easy to follow. His expertise as a photographer shines through.

Love the additional information on the DIPTIC application! This app alone was the reason I purchased the book and I would do it again (and again, and again)....Thanks DUMMIES for catering to my needs!

Ordered this as a gift. I guess my biggest complaint is it's not updated. I was a bit disappointed by that. The phones used in the illustration are older models.
