Probably the best book I have ever read that talks honestly about the money side of stewardship. I was especially impressed with how this couple combined the Scriptural/church historical views of money with a practical course in accounting 101. Most pastors talk about money in a general way, usually by using the overall catch word, stewardship. This book would help them understand money's proper place in ministry as well as how to manage it.

Fantastic book--a must have for all church leaders not just pastors. Contains wonderful resources for church boards and councils. If you are new in leadership it is great for learning how to read the financials handed out at meetings.

Great resource for pastors and church finance leaders.

This book is a must have for clergy and particularly those just starting in ministry. There is great practical advice.
