This book was so boring. It did not have many pictures. The pictures it did have were black and white. Blah blah !

My wife has an affinity for fashion books, and wanted to begin growing her collection. This is the third book I purchased for my wife's collection. She loves the book, and has added it to our coffee table. The hardcover book has a great binding, as well as quality paper, and crisp images. As the title states, this is a great little book to get for your loved one as a "just because" gift. It's priced great, and with Prime you can't beat the free shipping! also has special boxes that they use for their books, so you're not getting some huge box just for a book. Good job !

love looking at the older styles.. great way to get ideas on new fashions.. wanting something different to stand out.. great inspiration

Very inspiring for the amazing dream of creating bags. Bags that change the world and what you put in them.
